EDUCATIONAL SURVEY
Use of Animals in an Educational Activity

The Duke Institutional Animal Care and Use Committee (IACUC) supports the vital role live animals can play in education and training. Since course participants, students, or trainees serve as the best measure to demonstrate the effectiveness of the live animal component, the IACUC asks for a few moments of your time and completion of the survey below. The surveys will be included in the animal use file and they will be considered by the IACUC during the annual review of this training protocol.

1) Did you participate in the live animal component of this course: Yes  No   If no, please explain why:
