The Duke Institutional Animal Care and Use Committee (IACUC) supports the vital role live animals can play in medical training. At the same time, the IACUC recognizes that some types of training can be obtained through the use of simulators and cadavers. Since course participants serve as the best measure to demonstrate the effectiveness of the live animal component, the IACUC requests that you complete the following survey. The surveys will be included in the animal use file and they will be considered by the IACUC during the annual review of this training protocol.

1) Did you participate in the live animal component of this course:

Yes No If no, please explain:

2) To what extent did the use of live animals: *(please rate each question on a scale of 1, i.e. it did not, to 5, i.e. significantly)*

Increase your knowledge of the general topic	1	2	3	4	5
Meet your educational objectives	1	2	3	4	5
Help you acquire hands-on skills	1	2	3	4	5
Augment the didactic and simulator components of the training	1	2	3	4	5
Change how you will care for patients	1	2	3	4	5

3) Please provide your thoughts and opinions on the live animal training component of this course:
